

## DVD Player 10.1 inch Rexton 2019

### Product Highlight

- This aftermarket head unit with the latest Android system can support 4G network, allowing you to get access to internet at the highest speed you've ever had. The full touch screen also makes it stand out in the market with a large touch screen to greatly simplify the operation. As the newest representative for car head units, it features a wide range of capabilities to meet your different needs in your car. To choose a perfect road companion for fun and convenience, it's just this amazing head unit!

## Features Overview

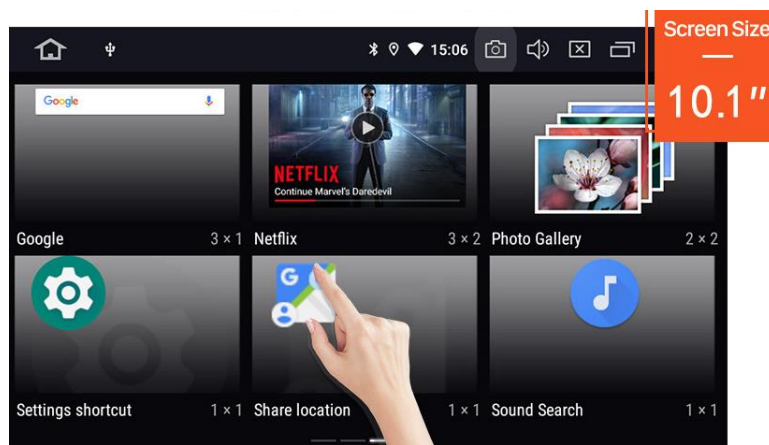

- 4G/3G&WIFI/App download/3D GPS Navigation/FM&AM Radio/Bluetooth/Dual Zone/File Management/HD 1080P/Steering Wheel Control/ Digital TV/Mirror Link/OBD2/DVR/Backup Camera/TPMS/MP3/AUX/USB etc.

## Advanced Configurations

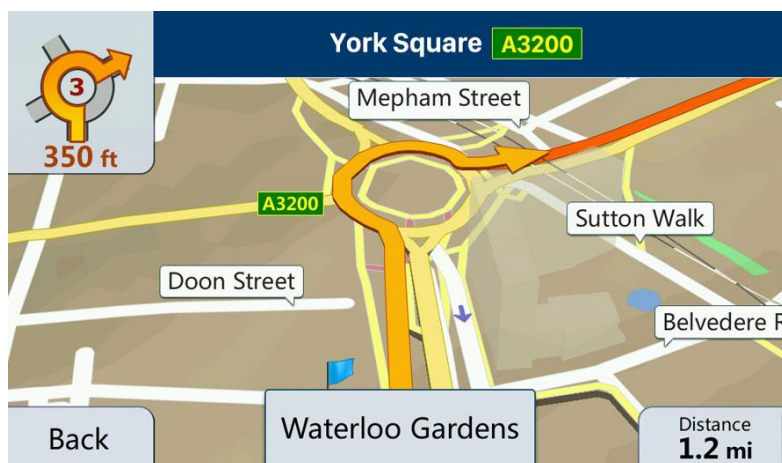

- OS:Android 9.0 system,fast and smooth operation
- CPU: Quad - Core 1.5 GHz Coretex-A35, Main Frequency 1.5Ghz ,more efficient computing capability
- RAM: 2G DDR3 RAM memory
- Hard Disk: Built in 32GB iNAND MLC, featured MLC particles, high-speed, stability, bring you long-term service life
- GPU: Integrated GPU with hardware support 2D/3D speeding, supports OpenGLS2.0 and OpenVG1.1, 1080P hardware decode, run more smoothly for the GPS Maps
- UI: Fresh unique user interface with dynamic graphics
- Display: Core board digital RGB888 direct drive, support multi-resolution,UXGA@60HZ1600\*1200 max, higher definition and clearer display
- Screen: Full Touch screen control with dynamic graphic user interface, support larger screens above 10 inch car DVD, clearer than resolution 1024\*600 with the same interface
- 2 USB Ports: It comes with 2 USB Ports to meet your different needs of external devices, more choices for service and entertainment

## Unique Features

- Latest Android System: Loaded with the most advanced Android 9.0 system, it offers the fastest and smoothest operation you've ever enjoyed.
- Prompt Response: Adopted Quad - Core 1.5 GHz Coretex-A35 CPU and high-speed iNAND MLC hard disk, this unit can start up within just 1 sec. And it only takes less than 2 seconds for sound, 3 seconds for rearview and 16 seconds for operation.
- High-speed 4G/3G/ WIFI Network: It comes with built-in WIFI network and can support the most up-to-date 4G/3G module, allowing you to easily get access to internet for online music listening, online videos watching, online games watching, e-mail checking, etc as long as you reach a WIFI hotspot or connect it to a 4G/3G module.
- Android Apps downloading: It can support thousands of apps downloading from Android market to meet your different needs, such as Twitter, Facebook, YouTube, M&N, Gmail, Skype, Google maps etc.

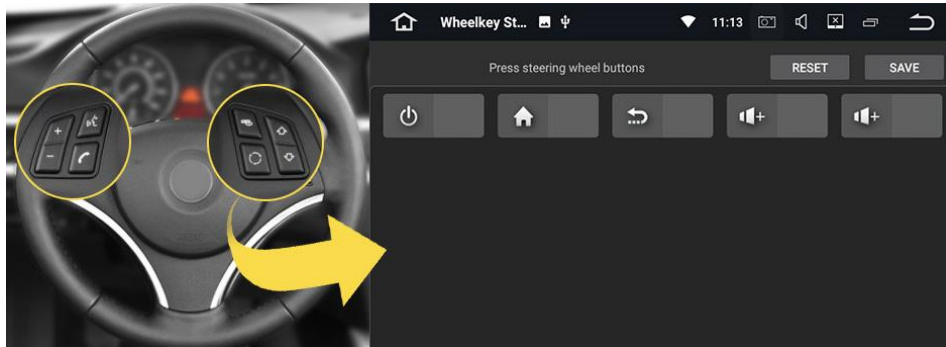

- HD Touch-Screen Display: It greatly simplifies the operation with a digital multi-touch screen which can support multi-resolution,UXGA@60HZ1600\*1200 max, making it clearer than resolution 1024\*600 with the same interface.

- 3D GPS Navigation: With 3D maps (maps in iNAND), the best way to your desired destination is just in your reach within seconds. All the navigation information is available, such as the current location, speed, mileage, landmark building display, 3D

street view, destination search and turn-by-turn voice directions, etc. You can also download the latest Google maps app.

- **Bluetooth for All Brands Cell Phones:** It synchronizes your smart phone regardless of any brand with Bluetooth connection. The great convenience like Phonebook input, music playback and name search by A-Z are all supported. Hands-free calls and phonebook search on the large screen can greatly ensure your safety on the way. And Bluetooth music streaming just makes you feel relaxed all the way without any fatigue. The latest iPhone and Android phones can all be supported.
- **Amazing Video Formats Compatibility:** A wide range of video formats can be supported, including wmv (VC1 codec), .avi (H.264, MPEG4, MJPEG, Xvid, WMV), .mp4 (H.263, H.264, MPEG4 codec), .mpg (MPEG-2 codec), .m4v (H.264, MPEG4).
- **Games Support:** The HD 2D & 3D games are both compatible with this unit. A huge ton of excitement is just waiting for your families and friends in your car.
- **Video Out Function :** It supports Video Out Function without AD switch, what's more, the pictures of CPU can output as backstage video.
- **Convenient One-key Functions:** It supports one-key rescue, one-key navigation. The great convenience is just within your fingertip.
- **Mirror link:** It synchronizes your mobile phone with this unit through WiFi or USB. This technology enables you to gain access to your smart phone's applications on the unit to play music and videos etc.

## Options

- **HD Digital TV:** DVB-T/ATSC/ISDB-T HD TV Tuner can be provided for receiving digital TV channels.
- **Car DVR:** The DVR function is used for recording the whole process of traffic accidents, taking photos for front of vehicles and storing the video in real-time while driving.
- **4G/3G module:** With a 4G/3G module, you can easily get access to the internet in your car. The availability of the latest 4G network makes you enjoy the fastest connection to the internet you've ever had
- **Backup Camera:** It adds a backup camera for automatically switching to the parking image while reversing. This option includes a waterproof and night vision backup camera which will be mounted to the position of your car's license plate lights and the cables for its connection. The default rearview camera is wired. If you need the wireless one, please send a note us after placing order.

- OBDII: With this OBDII Scanner, you can connect it to your car's DLC port and open the unit's Bluetooth for monitoring the car's fuel consumption, water temperature, revolving speed, environment temperature, intake pressure, throttle position, air flow, computer load, car speed etc in the OBD interface.
- TPMS: Perfectly connected with this head unit with simple installation, the TPMS reports real-time tire-pressure information via a pictogram display or a simple low-pressure warning light to help you save fuel consumption, extend the tire life, decrease downtime and maintenance and increase environmental efficiency. The early recognition of the malfunction of tires provided by TPMS can avoid traffic accidents to improve safety in the whole process of driving.
